Natural Disasters

This past month we have seen a tremendous amount of natural disasters.

USA— Pray for the people in the Carolinas, Florida, Alabama, and Georgia. Two hurricanes hit and caused death and destruction.

HAITI— On October 6 a 5.9 earthquake struck outside Port-de-Paix, Haiti. At least 17 people died and a lot of buildings destroyed. The earthquake shook the church/Mark's house in

Pignon. It knocked the roof loose, but that was the only damage on the property. Several church members lost their homes due to severe cracks. Gonaives also felt the quake. Francius Joseph had roof damage and their were homes lost in the Gonaives area. The church in Gros Morne was severely damaged and needs to be rebuilt. A new home will cost approximately \$8000. We are waiting on estimates to the church. If you are willing to help, it is needed and appreciated.

PHILIPPINES— Cheery Abesio wrote:

This is very bad news about the landslide in our home in Naga. I think you have read the news here in the Philippines. There are 73 people that died and so many missing bodies, I have relatives that died also, I'm very busy helping as a volunteer in the landslide, giving foods, especially prayers of comfort. At the same time we have bible study also. My heart is aching everytime I pray for them and especially my relatives that died. I cant understand my feelings.

Christmas At Jesus Loves Me Home

This is Edmund! He is 6 years old. We think Edmund had a stroke sometime during his young life. He has speech difficulties and movement on one side is limited. He's a happy kid and loves to be loved on. Last Christmas was his first Christmas with us. When he received his bag of toys he was confused and quiet. He did not know what was happening. He had never experienced Christmas before. One of the other kids went over and opened the bag for Edmund and pulled out a toy for him. We had a couple of chunky toddler toys, we gave him one of them. This was the toy he pulled out. I was trying to watch all the children, but I was drawn to watching Edmund. It was as if the other children were not there, the noise and chaos was quieten, it was Edmund and me. Edmund sat looking at the truck. At first I was a little disappointed because he was not smiling and he was not doing anything but staring at the toy. Edmund started touching the truck, little taps and then running his fingers over it. The more he touched, the bigger his smile became. He eventually grabbed the truck, held it in the air and started screaming. He brought the truck to Lacey and Caroline, he can't jump, but he was bouncing as best as he could and trying his best to communicate. He was so happy and excited! He went back to his bag, the more he saw, the more excited he became. He brought his toys to all of us, to show us and to understand what each toy did, then he'd laugh and laugh! Oh! The joy!

The Christmas gifts to the children at the Jesus Loves Me Home are not only toys and other needed items, it's love being given to them. They love the toys, but knowing that others love them is so much more important.

I have often said that the Jesus Loves Me Home Christmas party is one of my favorite days of the year. My heart is overflowing with happiness and joy, simply because the children are so happy.

We use the Christmas money to buy clothes, pots and pans, dishes, sheets, etc. the kids are happy to receive these items too. When Clotide pulls into the yard from the market, the kids stop what they are doing and run to the truck. They are happy to help unload looking at all the new items, chattering as they carry everything to the storage room.

We need YOU to make this happen. We need you to help us show these kids they are loved not only by us but most importantly God Loves them. We need your help to provide Christmas to the children. Any gift you can give is deeply appreciated. Please share your love with the children!

Hope For Bulgaria

We have had such a busy month between helping in school, preparing my children for school as here is a new system and everything is very expensive and hard, and helping in church as our pastor has operation.

We have 2 seminars in church for social workers, teachers, people. One of them was how to protect children from pedophiles on the internet and the other for burn out. As Bulgaria is at the top for depression this is so needful. Praise God that so many people come, some just afraid to come in church, but at the end were so happy and glad. For first time they did-

n't say this is cult or dangerous people or American agency.

My work at school is getting very stressful and I'm not sure how I will continue. There are so many children this year, most Gypsies, Turkish and don't have family. They use energy drinks, marijuana, and very, very bad background No one wants to work with them. I feel so tired but at the same time see how some of them change and see me as mom or someone to talk. I'm praying for Gods wisdom and energy as feel so tired.

We still don't know what to do with Georgy. In Svishtov there is no work. I told you how the mafia sent him out because here in Bulgaria most the money stolen is for Europe projects, the money coming from Europe union. 2 weeks ago, one journalist make report on tv about how the mafia steal these money and after a few days they find her raped and dead.

Have a wonderful day and thank you so much for your friendship as it is so important for us because of negative world around us.

Report From Antonio in Cuba

God bless you very much is my wish, I have not written before because I've been busy with the Lord with the churches and everything related to that matter, but I will be writing to you this week to keep you in touch. Today I am writing to thank you and to tell you what was invested, Many thanks to you brother Zane and his wife for their time to manage their help, as well as many blessings and prosperity also for the brothers and sisters who with the Antioch Christian Church, thank you. I bought for the leaders in the Christian Church of Guanabacoa, a new mobile phone with Android that I gave to the Youth Leader of my church, also bought a Tablet computer although it is used, but very good as well, and I handed it to one of the elders and teachers of my church. I convey the gratitude of the brothers to you and the rest of the brothers of the church they supported.

We celebrated the 4th anniversary of having founded our Christian Church in Guanabacoa the week before.

God bless you very much is my wish, today I write you basically as responsible and pastor of the Christian Church of the Viper LA VIBORA to tell you about the issues and the situation of the church. Basically this church I am reviving and raising from scratch, because I had almost no one attending and had even closed for some services. Because of Manuel's illness before he passed, they had not been able to have services regularly. At the moment it is already working with enough regularity, I have done things for God there with respect to the church that had never been done, that is to say there is already a group of formally appointed leaders and I have organized all the control of the system of offerings of the church and I began to define the members, who are the members of the church and their responsibilities, I am also preaching and teaching the leaders to evangelize and organize in the work matters of the church, I tell you that in the service last Sunday there were 3 new completely new people who had never gone and accepted the Lord and made their confession and were baptized. Thanks to God for giving me His strength for this difficult work. So pray a lot for these things. This is referring to the spiritual area.

Now with respect to the material conditions and the equipment that we have, I would like to tell you that at this moment we have almost nothing, because?, Because most of the things are very old and in a very bad state, we have audio equipment that most of the time we have to sing without because it is half broken, the computer that we have there that is desktop and the tower is broken, so it does not work, that is, we have almost nothing working. The fans have been worked on to keep them going, but they are starting to be beyond repair. I thank you because you have already helped me with the Christian church in Guanabacoa, but now this is the situation we have in this one at Viper that I am also pastoring. Anything you can do to help will be greatly appreciated.

He loves you in the love of our Lord Jesus Christ
